Adriana Spellman, M.D.  
Eileen Morrison, M.D.

Jennifer Schaefer, M.D.  
Akemi Nakanishi, M.D.

**With your scheduled surgery coming soon, there are a few things you need to know regarding the day of your surgery:**

- **We recommend that you go to your local pharmacy and pick up a bottle of Hibiclens wash (this can generally be found in the first aid aisle/section). Follow the directions on the bottle for proper dilution. Use the diluted Hibiclens wash while showering to cleanse the abdominal area the day before and the day of your surgery. Showering twice in the 24 hour period before surgery with Hibiclens wash has been shown to decrease the postoperative wound rate.**
- **After midnight the day of your surgery, DO NOT eat or drink anything. If you do, this can delay your surgery.**
- **Please go to the Admitting Department at least two (2) hours before your scheduled surgery time. They will admit you and then bring you up to the surgical floor. They will then prepare you for your surgery and obtain consents.**

**If you have any questions regarding the above, please call our office at:  
(847) 680-3400.**
