Dear Sir

**Rasp Mine MOD 11 - Ventilation Intake and Underground Exploration**

Reference is made to the abovementioned matter.

Council acknowledges the proposed modification application for the Rasp Lead/Zinc/Silver Project (MOD 11 – Ventilation Intake and Underground Exploration).

Council notes that the modification essentially relates to:

BHOP seeking to extend mining development activities into the northern section of CML7 (Main Lode Blocks 13, 14 and 15). In order to develop the new mining blocks, BHOP must also install a new ventilation intake to provide suitable ventilation to workers in the northern areas of the mine. The proposed modification will not change the approved extraction rate, processing rate or other operating functions.

Council wishes to advise that it understands the need for the modification and proposed works, and does not have any objection to proposed MOD 11.

For any further queries, please contact the undersigned on telephone 08 8080 3313.

Yours faithfully

TRACEY STEPHENS  
TOWN PLANNER
