

Owner Update 10-26-22

Waterfront Residents:

The dock was badly damaged during hurricane Ian and it doesn't appear a vendor will be available soon to repair or rebuild. The dock entrances have been blocked with yellow caution tape. You should only go to the dock if necessary and at your own risk.

On Tuesday demolitions started on units 2278 & 2286. Demolition continues on 2262-2270. Work on unit 2262A has not yet been started.

Anna, the Industrial Hygienist was on-site Tuesday to test units that have had sheetrock removed and have been sanitized. Anna will also do walk throughs with Travis and unit owners that have questions about cabinets/shower tile being removed or not.

There is a vacant position on the board. At the next board meeting the board of directors will appoint someone to fill this position. If you are interested, please let me know via email.

Any questions/comments can be directed to one of the following emails:
