Itinerary

Your driver will then take you on a trip back in time to the fascinating Akrotiri Excavations, a prehistoric Bronze Age city frozen in time by volcanic ash over 3600 years ago.

You will then be taken to explore the different little villages on the island of Santorini, so you can get a feel for the ones you may want to spend a day exploring. Your next stop will be the largest village on the island, Emporio.

The next village your driver will take you to is the old capital of Santorini, Pyrgos. This hillside village is a wonderful display of traditional architecture, galleries, vineyards and picturesque churches.

Your driver will then take you north towards the village of Imerovigli. On your way you will have a quick stop in Firostefani to see the famous Blue Dome Church, for an iconic Santorini photo op.

Continuing north through the beautiful Santorini countryside, you will then have the chance to explore the last village of the day, Oia.

Cruise across the picturesque Caldera landscape of Santorini Sail to the famous volcanic islands, and the famous Hot Springs, for snorkeling and swimming. Visit the most unique beaches of the island: Red beach, White Beach, the Black Mountain beach and the Light House, south of the Caldera. Sail also to the picturesque Thirassia Island and the northern part of the island including the Port of Oia, Ammoudi. Enjoy a dinner complemented with wine and drinks, and admire the spectacular colors of the world's famous Santorini sunset: the perfect ending to a magnificent cruise

Day 3 Full Day Tour with Sunset in Oia

If you want an in-depth look at the most popular landmarks and historical sites in Santorini, and are looking to maximize your time in the city, then the 'Best of Santorini' is the one for you. You will start at the fascinating Akrotiri Excavations, a prehistoric Bronze Age city that is said to be the inspiration behind the mysterious city of Atlantis.

What makes this site so interesting is that a volcanic eruption, over 3600 years ago, covered the city of Akrotiri in ash, meaning everything was frozen in time at the exact moment the volcano erupted. At this site you will have the opportunity to take a journey into the past and see the magnificent wall paintings, elaborate drainage systems, and excavated furniture vessels of the former settlement. After your informative trip back in time, your driver will take you to see the stunning Red and Black beaches of Santorini.

The Red Beach is world famous, and definitely a wonderful photo opportunity while on the island. The Black Beach of Perivolos is the largest beach on Santorini, and gets its color from the black volcanic pebbles that cover its shores. This stop is the perfect place to relax, soak up the sun, gaze out across the Aegean Sea, and enjoy a few fresh snacks at the seaside restaurants.

Itinerary

Your next stop will take you inland to the largest village on the island, Emporio. The small white-washed houses, narrow alleys and the resident's unique dialect make this quaint village truly interesting. Visit the wonderful windmills, learn about their rich history and enjoy the panoramic views of Santorini. Up on the hill just behind the village of Emporio, you will find the amazing ruins of both Goulas and Kasteli, a fortress from the fascinating Byzantine period. If the views from the windmills aren't enough for you, then you are sure to love the ones from the highest mountain in Santorini, Prophet Elias.

This mountain stands 2,000 feet above sea level, and from its peak you have breathtaking, 360 degree views of the entire island. While on the mountain you will have the opportunity to visit the lovely little Greek Christian monastery that is perched on the very summit of Prophet Elias.

Day 5 Volcanic Islands Cruise

The tour departs daily from the old port of Fira, at 11:00 in the morning or at 14:15. After only 15 minutes by boat, we'll be arriving at the volcano bay, where we'll be docking for about 1 hour and 30 minutes, during which, if you want, you can follow the path to the top where active craters are. Next we'll be moving to the island of Palea Kameni for the hot springs, the famous mud baths, which were formed as result of volcanic eruptions. In the small bay of Agios Nikolaos the water temperature ranges from 30 to 35 degrees Celsius, as it mixes continuously with the normal sea currents. The boat will be staying here about 30 minutes to allow you a healthy bath. After the bath, you will return to the old port of Fira.
