

Supplies needed:

Piece of paper 8x11 ½ or larger (for family of 4 or more)

Brown, green, red, yellow, and purple paint

Paint brushes

Dishes of water to clean the brushes

1. Paint the littlest hand first. Paint the palm and thumb brown, and each finger a different color. Put their hand on the far left or far right side of the paper.
2. Paint the next size hand the same way, paint the palm and thumb brown. Put a different color on each finger. Put this hand next to the littlest handprint.
3. Continue with the next size hand. Paint the same way as above. Continue until all hands are on the page.
4. Give the turkey legs, beak, eyes, and its wattle under its chin.
5. You can use black paint to put your first initial on your turkey print.
6. To make leaves, dip your finger in the color it was before and put fingerprint leaves on your page.
7. Where there is room, you can add a tree, sun, birds, or other things.
8. Do not forget to sign and date your masterpiece!
9. Let it dry before you hang on the refrigerator.
10. Or you can trace each hand and color it with marker or crayons, for a less messy alternative. Add the tree, sun, birds and leaves using markers and crayons.
