- A clear glass cup that can hold at least 1 cup of water

Instructions:

1. Hold up the cup of clear water. See how we can clearly see through it?
2. Add 4–5 drops of blue food coloring to the water. Stir.
3. Add $\frac{1}{2}$ teaspoon baking soda to the water. Stir. Can you see through it?
4. Add 1 tablespoon bleach to the water. Stir. Keep stirring! The water will become clear!

Lesson connection:

Noah was told to build an ark. He could not see any reason to do so. But He trusted God's directions. He did what God told him to do. Noah was on the ark for a long time. He could see nothing but water as He looked out from the ark. But he knew that God said He would care for him and his family. He trusted that God had a plan. God has a plan for us. We are His children. We do not need to see the details of His plan for us. He has given us His clear Word to tell us all about His steadfast love for us in Jesus, our Savior.
