

SKILL INDIA

Honour Your Dreams

The people of India have great creative energy with positive potential to take them to spiritual heights. If human creativity is a special quality then giving it the right knowledge and opportunity is its apex. Demographically, today's India is at its youngest best and has the power to meet any challenge and this is the perfect time when youth is alert and aware and provoked by the environment and lack of values and is eager to make radical changes and just need some knowledge and skill to channelise this energy.

Skill India is a campaign launched by Prime Minister Narendra Modi on 15 July 2015 which aims to train over 40 crore people in India in different skills by 2022. It includes various initiatives of the government like "National Skill Development Mission", "National Policy for Skill Development and Entrepreneurship, 2015", "Pradhan Mantri Kaushal Vikas Yojana (PMKVY)" and the "Skill Loan scheme".

Through this campaign India is creating large and good quality vocational institutes, reducing risk by providing patient capital. Including grants and equality, becoming able to create sustainability of support systems required for skill development.
