**WHAT WE DO**

Innovative Metal Solutions was founded in 2003. We began by servicing the Midwest and have expanded to the East Coast, supplying metal products, fabricated parts, metallurgical services and project consultation. We can cover a single item or integrate multiple supply partners from quotation to order fulfillment through a single point of contact. Our knowledgeable team provides vast sales experience servicing the sole proprietor to major corporations with multiple locations. We bring the right expertise to the job and are ready to meet your needs.
