

**The Advance Package is ideal for those seeking a more flexible learning approach with the convenience of online theory classes. It also offers the added benefit of accommodation and transportation during the internship, ensuring a seamless and enriching experience while you gain practical skills and industry exposure in the vibrant aviation landscape of the UAE.**

The **Advance Package** is designed to offer an enhanced aviation training experience in the UAE, building upon the features of the Basic Package.

## **1. Training and Career Consultation:**

Similar to the Basic Package, the Advance Package provides professional training and career guidance from experienced aviation experts. You will receive comprehensive support to understand the various career opportunities within the aviation industry and make informed decisions about your future path.

## **2. Online Theory Class**

In the Advance Package, the Theory Class is conducted online, providing you with the flexibility to study from the comfort of your own location. This online format allows you to access course materials, lectures, and discussions through a digital platform. It is a convenient option for individuals who prefer a more flexible learning schedule or are unable to attend face-to-face classes in the UAE.

### **3. 1-month Internship in the UAE with accommodation and land transportation:**

Like the Basic Package, the Advance Package includes a one-month internship in the UAE, giving you hands-on experience in a real aviation environment. However, in this package, we go a step further by providing accommodation during the internship period. This helps ensure that you have a comfortable stay while focusing on your learning and professional development. Additionally, we also offer land transportation between your accommodation and the training/internship center, making it convenient for you to commute during your time in the UAE.
