

## Product Brief

# 2-3/4" Lockback Knife

Item #1891BK

Perfectly sized for a multitude of tasks.

Lockback design securely locks the blade open.

A memorable gift.

### Why the 2-3/4" Lockback Knife?

- Lightweight, sharp, dependable - everything you want in a pocket knife, guaranteed. The blade locks open for use and securely folds shut for safety and convenient storage.
- Strength, agility and ease in one sharp package. This American-made knife is praised by its owners. High-carbon, stainless steel blade available with straight- or Double-D®- edge. Clip easily reverses for left or right pockets. Makes a great gift and can be engraved.
- From your backyard to your boat and everywhere in between, this American-made knife is up to the task. Its lightweight and convenient size make it easy to carry and store just about anywhere. Lockback design securely locks the blade open for added strength and control. Blade available with straight- or Double-D®- edge. For a memorable gift, engrave the blade or handle.

### Use to:

- Cut or slice a variety of items.
- Outfit your backpack or garden bag.
- Cut twine or thin rope.

“ I'm a professional Mariner and use my knife on a daily basis....Bought my lockback at the Annapolis Boat show - 12 years ago. The knife looks like new and the blade has retained its original luster. Usually sharpen every 3-4 months.... Will probably be the last knife I ever buy. ”

# Design, Material & Craftsmanship

## High-carbon, stainless steel

Holds a sharp edge while maintaining its beauty. Resists rust and corrosion.

## Exclusive Double-D® edge

A series of three recessed cutting edges make a smooth, clean cut with less pressure. Points protect blade to retain sharpness.

## Optional: Straight edge

30-degree angle and ultra-sharp edge for smooth cutting.

## Lock tumbler

Locks blade in place during use.

## Handle material

Glass reinforced nylon.

Handle color only available in Black. Blade and handle can be engraved.

## 2-3/4" Lockback Knife

#1891BK

Blade length: 2-7/8"

Overall length: 6-7/8"

Weight: 2.2 oz.

## Special Manufacturing Steps

### Laser Cut

A powerful beam of light is programmed to burn through the steel, following the exact shape and dimensions of the blade making very clean, smooth edges and is very precise.

### Heat Treat Process

A unique three-step process of extreme heat, deep freezing and tempering that makes the blade hard yet flexible, stain resistant and able to hold a sharp edge.

### High-Speed Buffing

The edge is buffed in this extra step, taking it from sharp to razor sharp.

“ I bought this knife for my husband, to replace the same knife which he lost. He asked me to get him another one because it is the best knife he has ever had. He works on military ships and uses it a lot. He says it holds a sharp edge and is easy to sharpen when needed. He is not one who likes to spend money, so for him to ASK for this knife says a lot. I love all of Cutco products and will not buy any other knives. ”
