

## Product Brief

# CUTCO®/KA-BAR® Outdoorsman

Item #5726

American-made, KA-BAR® tough,  
Cutco Guaranteed.

From backyard to backwoods, tackle any task.

Don't face the outdoors without it.

### Why the CUTCO®/KA-BAR® Outdoorsman?

- This American-made outdoor knife will have you covered in the thick of the forest and around camp. Expertly engineered and built to perform, the thick blade and full tang combine to make this one rock solid knife that won't let you down and will stand up to the rigors of the outdoors.
- American made, KA-BAR tough and backed by Cutco's The Forever Guarantee, this rugged knife will be an important addition to your camping and survival gear. The super sharp, straight-edge blade with its epoxy powder coating is ideal for outdoor chores and heavy duty enough to clear brush, shred wood for a fire and cut paracord.
- This American-made knife is heavy duty for aggressive field jobs yet easy to carry. Whether you're in the backyard or the backwoods, with its sure-grip handle, this will be the knife you depend on to set up camp. Its protective sheath and rugged strap allow you to safely and conveniently carry this knife on your belt, in a backpack, toolbox or even on the boat.

### Use to:

- Set up camp.
- Clear brush and branches.
- Cut paracord and rope.
- Shred wood.

American-Made Knives.  
Guaranteed Forever.

# Design, Material & Craftsmanship

“ I can take the nylon belt loop off and put the knife right in my pocket with the case when I am out camping. The thickness of the blade is awesome all the way to the tip. Super sharp. This is not a wimpy knife, it is a performance tool, and I look forward to a lifetime worth of use backed by Cutco. ” - Online reviewer

## CUTCO®\KA-BAR® Outdoorsman #5726

Blade length: 5-1/2"

Overall length: 10-1/2"

Weight: 9.7 oz.

### Special Manufacturing Steps

#### Laser Cut

A powerful beam of light is programmed to burn through the steel, following the exact shape and dimensions of the blade making very clean, smooth edges and is very precise.

#### Heat Treat Process

A unique three-step process of extreme heat, deep freezing and tempering that makes the blade hard yet flexible, stain resistant and able to hold a sharp edge.

#### High-Speed Buffing

The edge is buffed in this extra step, taking it from sharp to razor sharp.

For additional Cutco Products, visit [www.cutco.com](http://www.cutco.com)

#### Handle material

Glass-reinforced nylon handle is textured for a sure-grip and is stain resistant.

#### Contoured handle

Allows you to position your grip closer to the blade for optimal control.

#### Interchangeable handle scales

Change handle color from Black to Green.

#### High-carbon, stainless steel

Holds a sharp edge while maintaining its beauty. Resists rust and corrosion.

#### Straight-edge blade

Ultra-sharp edge for smooth cutting.

#### Drop point design

A slow, convex-curved drop designed for control and added strength.

#### Full tang

Gives added strength and balance.

#### Epoxy powder coating

Aids in corrosion resistance.

#### Removable, adjustable nylon strap

- Easily attach to backpack
- Modify the sheath for right- or left-handed use.

#### Sheath material

Will not crack, chip or absorb moisture and is sanitary. Dishwasher safe.

Includes sheath, screws and hex key. Handle comes with Black and Green interchangeable scales. Blade can be engraved. California Residents: Proposition 65 Warning
