

Product Brief

Pocket Knife

Item #1886BK

The perfect size for your pocket or purse.

Makes a great groomsman gift.

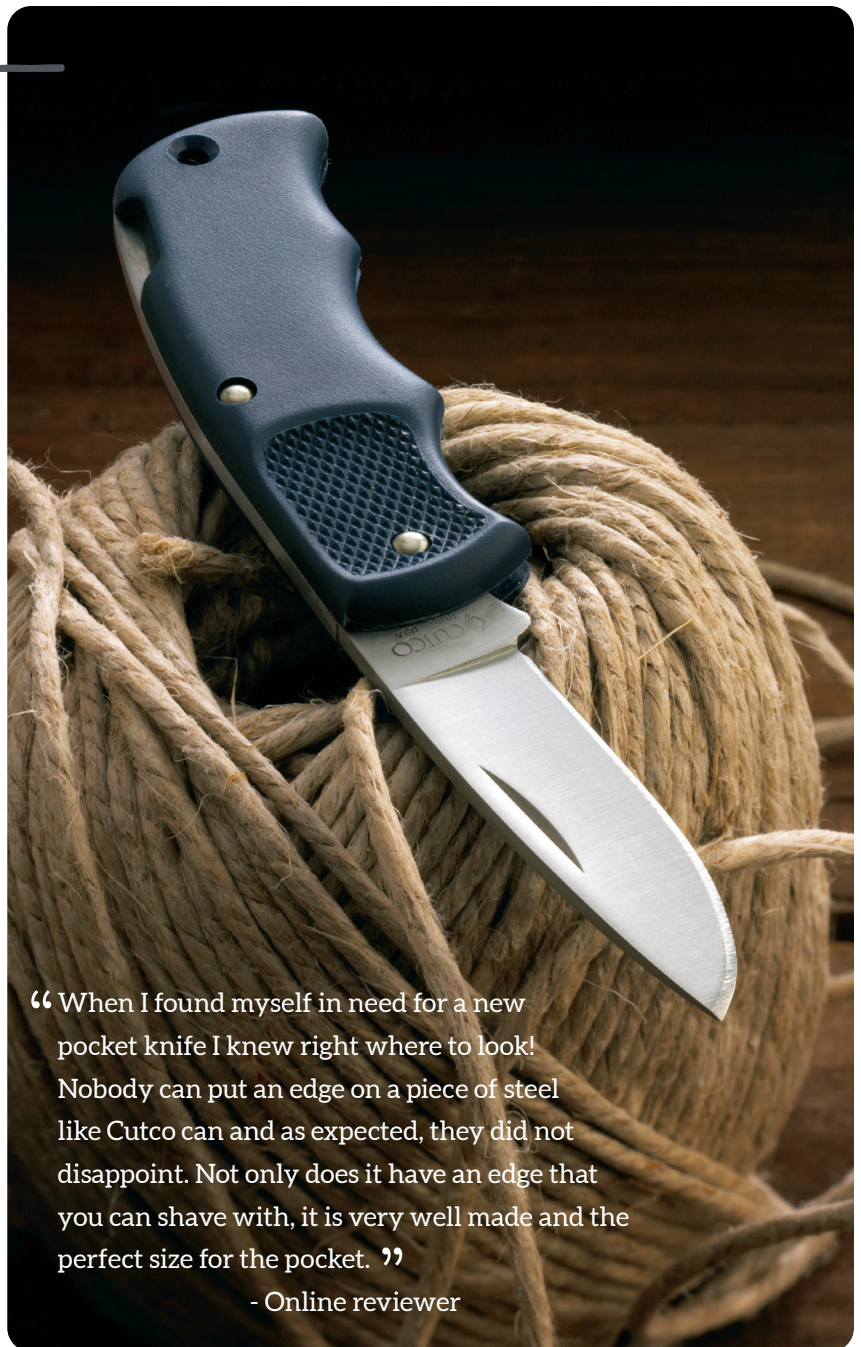

There when you need it.

Why the Pocket Knife?

- No pocket or purse should be without it. Lockback design has safety in mind with glass reinforced nylon handle. This American-made knife can be engraved and makes a great gift!
- Sharp and handy. The lockback design keeps the sharp high-carbon, stainless steel blade safely open during use. This American-made knife is light but strong. Gift-boxed and ready to give, engrave this knife for a memorable gift.
- This American-made folding Pocket Knife will become a trusted friend in no time. The lockback design holds the blade in place when in use and closes securely when done. Its light weight makes it comfortable for you to carry anywhere. Engravable handle makes it a memorable gift!

Use to:

- Cut or slice a variety of items.

“ When I found myself in need for a new pocket knife I knew right where to look! Nobody can put an edge on a piece of steel like Cutco can and as expected, they did not disappoint. Not only does it have an edge that you can shave with, it is very well made and the perfect size for the pocket. ”

Design, Material & Craftsmanship

High-carbon, stainless steel
Holds a sharp edge while maintaining its beauty. Resists rust and corrosion.

Straight edge
30-degree angle and ultra-sharp edge for smooth cutting.

Optional: Exclusive Double-D® edge
A series of three recessed cutting edges make a smooth, clean cut with less pressure. Points protect blade to retain sharpness.

Handle material
Glass reinforced nylon.

Lock tumbler
Locks blade in place during use.

Handle color available in Black or Dark Blue.
Can be engraved.

Pocket Knife

#1886BK

Blade length: 2-3/8"

Overall length: 5-3/8"

Weight: 1.2 oz.

Special Manufacturing Steps

Laser Cut

A powerful beam of light is programmed to burn through the steel, following the exact shape and dimensions of the blade making very clean, smooth edges and is very precise.

Heat Treat Process

A unique three-step process of extreme heat, deep freezing and tempering that makes the blade hard yet flexible, stain resistant and able to hold a sharp edge.

High-Speed Buffing

The edge is buffed in this extra step, taking it from sharp to razor sharp.

“ This pocket knife has been one of my trusted and true old friends - always nearby to lend a hand. And after twenty years - this is the first year I ever sent it in to get sharpened (and that was after twenty years of very heavy use)! As a surgeon, I have a strong appreciation for high quality, sharp knives - and that is definitely what you get with this product. ” - Online reviewer
