DENTALEZ

est. 1958

DENTALEZ starts selling the first-ever reclining treatment chair, which allows patients to sit back comfortably while providing dentists easy access, revolutionizing the industry.

Star

1990

HANDPIECES
Handpiece innovations over the past hundred years include fiber optics, sonic scalers, and LubeFree ceramic handpieces enhancing efficiency in the oral cavity.

Columbia

1990

DENTOFORM
Provides accurate, realistic teaching aids, customized for your curriculum. Trusted by dental schools, universities, training facilities, and laboratories across the globe for over 100 years.

Ramvac

2002

UTILITY ROOM
Innovators join forces to offer a full spectrum of water-free dental vacuum systems designed for decades of quiet power and lasting reliability.

Nevin

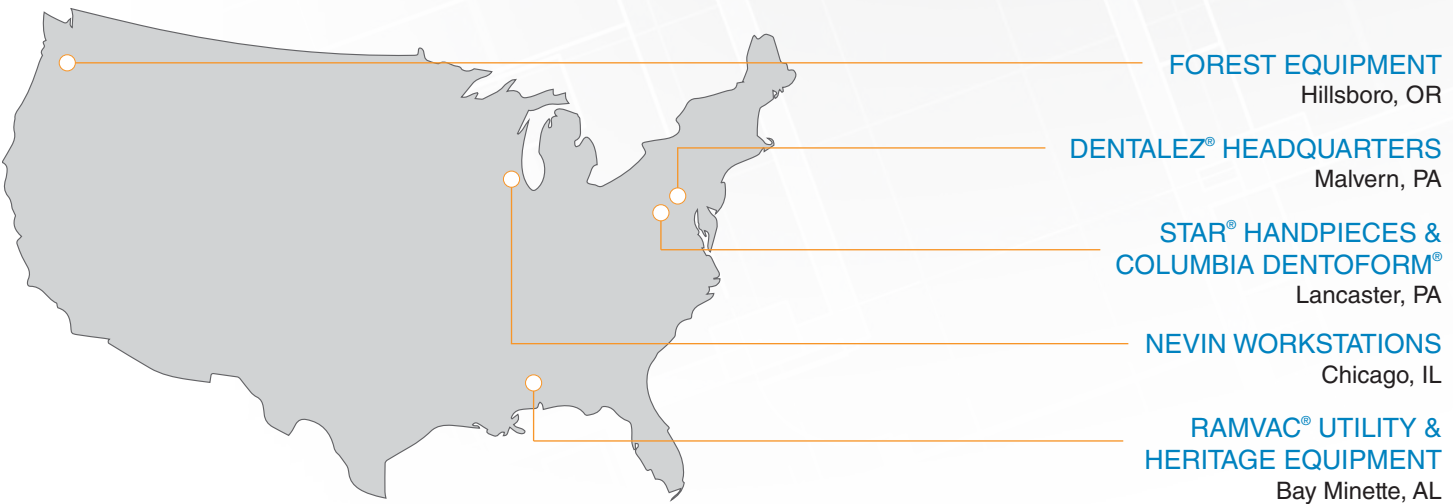

2007

WORKSTATIONS
Our dental solutions expand outside the treatment room with the company that has been designing, building and installing dental lab benches for dental laboratories for over 85 years.

Forest

2018

EQUIPMENT
Forest brings a portfolio of equipment focused on ergonomics, aesthetics, and comfort. Offering a variety of top quality color, surface and finish choices that present every practice with affordable, personalized solutions.

Star *HANDPIECES*

Star® power

Today's dental practices are facing a myriad of new challenges, with unprecedented focus on patient safety and comfort. You need tools that will do more than simply keep up. You need smart solutions in your treatment room, to give you the edge over today's challenges and be poised to conquer tomorrow's restorative enhancements.

Made in USA since 1889. 

High-Speed Handpieces

Star 500 Elite

Star 500 Elite with Aeras Intel delivers unmatched torque for an air-driven handpiece, all while staying true to its roots. The oral cavity is easily accessible, while the multi-port spray keeps the bur cool, all with exceptional balance in a lightweight design. Versatile cutting speed makes this the go to handpiece for everyday dentistry.

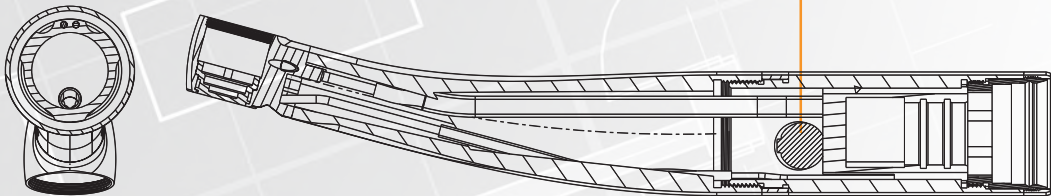

Star 400 Flex

To answer our customer's ongoing needs for power and flexibility, we've created a special edition Star handpiece specifically to be compatible with the KaVo MULTIFlex™ coupler, our Star 400 Flex with Aeras Intel.

What is Aeras Intel?

At any given moment, embedded RFID technology in each handpiece with Aeras Intel can tell you exactly where it is, where it's been and when it last visited the autoclave.*

*When used in conjunction with a compatible RFID reader system.
AERAS, Inc. is a separate corporation from DENTALEZ, Inc.

RFID Technology

430 Torque

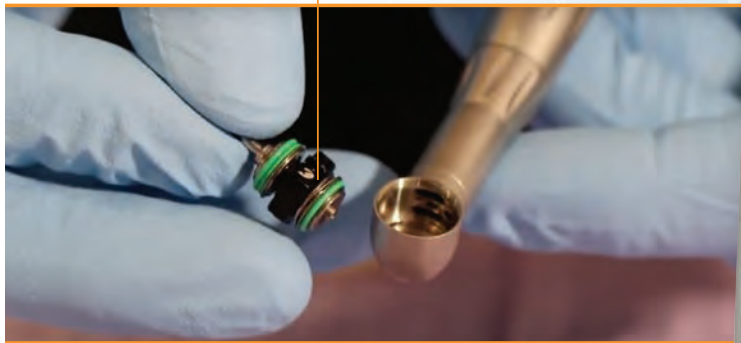

An upgrade for our 430 users, the 430 Torque offers 27 watts of power and provides fast, precise drilling and cutting. It is balanced and lightweight with a head sized for easy navigation of the mouth.

430 Series

The 430 Series of high-speed handpieces has been the go-to for generations of loyal DENTALEZ dentists. We designed this collection with a wealth of configurations to choose from, to fit the way you work. And we prioritized what everyone wants: quiet, reliable power in a sleek, durable handpiece.

Turbines

When you expect more with less downtime. No shipping is necessary, handpiece downtime is reduced from days to minutes when you change your own turbine.

Low-Speed Handpieces

Titan®

Our Titan low-speed handpieces are the go-to workhorse for generations of dentists! A multitude of finishes and configurations means this handpiece can help meet the varying needs in your practice.

Balanced and ergonomic, with **LubeFree technology** for less maintenance

Customizable; you create the exact handpiece you need:

- Swivel and Fixed back-end configurations
- LubeFree and lubricated angle options

Fully autoclavable system (motors, attachments, angles)

Electric Handpieces

Power, performance and flexibility

Our full-featured electric handpiece system includes a compact and programmable color touchscreen control unit that can be integrated into a variety of delivery units. ETorque offers a broad range of procedural support with multiple attachments that makes it both flexible and efficient.

Integrated System

Hygiene Handpieces

Better hygiene made easy with iStar prophy

Our iStar prophy features a simple, compact, cordless design that dramatically simplifies the prophylaxis procedure. No more stress from the pull of handpiece tubing. The iStar is ideal for the modern dental operator and features thoughtful design elements that focus on comfort and efficiency.

Prophy Star® 3 and 3 SW

Constructed with anodized aluminum, the lightweight Prophy Star line helps minimize operator fatigue. The LubeFree design saves time and money with no required maintenance. The 360-degree swivel helps with comfort and operator control.

Titan Blis-sonic scaler

Use sonic scalers to effectively and gently remove hard calculus deposits and stains. Conveniently connects to existing air-driven tubings and foot control. Ergonomic silicone grips with comfortable positioning reduces hand fatigue.

The heart of your operations

The heart and soul of your practice, no choice is more important for keeping your operations running than your vacuum and compressor. At a time when durability and safety have never been more critical, our mechanical room equipment is best in class.

Aeras Intel: Improving your utility room IQ

Our utility room solutions leave nothing to chance with Aeras Intel, which integrates embedded sensors that collect and relay data from your utility room equipment directly to an easy-to-read dashboard that you can access from any smart device. Easier yet, setup automated alerts (text and/or email) for office staff and your service provider when equipment is due for routine maintenance or needs urgent attention.

AERAS, Inc. is a separate corporation from DENTALEZ, Inc.

Compressor

Your office's most expensive instrumentation is powered by air from a compressor, including chairs, handpieces, and the milling station you may be investing in. The health of your patients depends on the cleanliness of this air as well.

C5 compressor

C8 compressor

C18 compressor

Vacuum - dry suction

Every choice made in designing these vacuums is done to help protect your practice's investment — from the materials they're built with to the technology that powers them. Now with Aeras Intel, easy, proactive maintenance makes the promise of performance plus durability just about foolproof.

RV4-12 dry vacuum

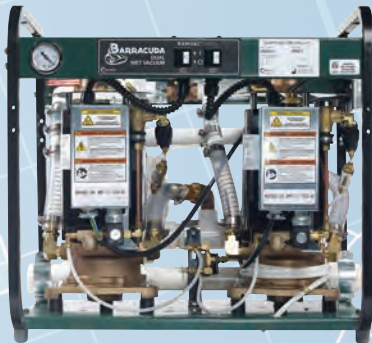

RV7 dry vacuum

RV12 dry vacuum

Vacuum - wet suction

Ramvac offers a full range of water recirculating pumps as well, including a dual pump configuration offering redundancy to minimize downtime that offers back-up protection to prevent costly interruption to workflow.

Forest *EQUIPMENT*

A successful dental practice is built on delivering an exceptional patient experience. Your personal style and standard of excellence should be infused in everything from the comfort of the patients' chairs to the unique design of your operatory space. Only Forest can create a customized experience that will set you apart from your competition.

Details, done well

We thought about the things that make a difference. Then we made them standard across our catalog. Intelligently approached, smartly designed, and available to you at an affordable price. That's details, done right.

Fusion 3800 equipment also available

Affordable excellence

A **better fit that lasts longer**, with molded plastic, not vacuum-formed. **Durability** that looks great **over time**, thanks to aluminum and steel instead of plastic in all the right places. **Higher quality** paints and upholstery create a custom **look that delights**, for years to come.

Columbia® versatility

Grounded in over 100 years of university-based education, we are your partner delivering customizable solutions to meet today's modern curriculum needs.

Made in USA 

Today's educators require dentoforms that are multitasking and multipurpose, integrating new procedures that require nuanced tools and accommodate today's tougher materials. We thrive on creating smart new solutions for delivering the most forward-thinking and innovative educational programs.

Magnetic Quick Disconnect System Manikin (MQDMS)

Magnets in the manikin and typodonts make for a quick change of typodont from student to student.

Magnetic Typodonts

Solving problems together

Now, we are excited to bring you a barrier-breaking implant surgical manikin that will change the landscape of academic and professional implant dental education. For the first time, students can learn with a true, extremely accurate simulation model, using our advanced surgical manikin system.

Surgio is the one and only surgical and restorative manikin system with extraordinary realism for procedural accuracy on a number of sites.

Scan for more info on our Columbia Dentoform products.

Oral anesthesia manikin

Consists of silicone face over anatomically correct jaw, upper and lower permanent teeth, landmarks for teaching dry injection application and metal skull that can be attached to a bench mount or table-top stand. Options with electronic sensors for light and/or sound available.

Fletcher x-ray manikin

Our mission to provide educators and students with the best, most versatile, and most cost-effective simulation products is epitomized by Columbia Dentoform manikins. Fletcher® plassein head is the original, all-inclusive, customizable manikin for a realistic educational experience.

Nevin *WORKSTATIONS*

Nevin™ efficiency

Your lab space has to fit a staggering amount and variety of tasks into limited space. Nobody conquers workstation efficiency like we do. Like your own time-motion study, we can custom craft a room that works to your advantage, with intuitive organization maximizing every inch for the way you work.

Durability

Laboratories withstand tremendous wear and tear. Nevin workstations and modular casework are built to last with construction of US sourced cold rolled steel with durable powder coat paint finishes.

Cleanliness

When you work with today's finest materials, you can create some pretty fine dust. Nevin offers quiet, powerful, energy-efficient, vibration-free, and affordable dust-collection systems that will reduce your exposure to airborne particulates and keep the laboratory cleaner.

The DENTALEZ sales force is composed of highly specialized teams, each with specific knowledge to focus on your distinct challenges. We understand your world, whether you're a dental service organization, school, government facility, or a private practice, we can apply targeted expertise to help you fine-tune and solve for exactly what you need. Scan here to connect with exactly the right team to help you.

Customer Experience

is a comprehensive concept for us. We are here to help you, from initial purchase through a lifetime of support and growth. Our customer experience experts provide collaborative, creative solutions to support your practice, then continue to support you with ongoing customer care, professional maintenance, and repair support.

“When I select a piece of equipment, whether it’s for my personal wildlife photography or in my dental practice, I want the peace of mind of knowing it was a worthwhile investment. That means knowing it solves my unique set of needs, having confidence it will do the job reliably and exceptionally, and trusting the service behind it.”

-Amy Ridall, DDS, MS, PhD

Prosthodontist, Dental Specialist of Westchase, Houston, TX
