Company may reject any invoices which contain billing rates that are inconsistent with Company's current rate schedule on file.
3. **TERMS OF PAYMENT.**
 - 3.1. Company shall pay all undisputed charges indicated in properly itemized and supported invoices for Work performed by Contractor and Accepted by Company in accordance with the terms of the Agreement subject to a Work Order, within thirty (30) days after receipt of invoice by Company. If Company disputes a portion of an invoice, at Company's request Contractor shall submit a revised invoice for the undisputed amount and Company shall pay such undisputed portion within thirty (30) days after receipt thereof. Upon Company's request, Contractor shall provide documentation regarding un-vouchered liabilities including: a) the estimated dollar amount of all Work performed but not invoiced for that month or previous months, and b) any invoice submitted but not yet paid. Documentation must include Company's Order number and, if applicable, release number.
 - 3.2. Contractor must invoice for Work in a timely fashion and within the period specified by Company. Subject to Company 's invoicing instructions, Contractor shall issue its final invoice to Company within one hundred eighty (180) days of the completion of the Work being invoiced.
 - 3.3. Each invoice shall (a) be certified in writing as correct by Contractor's Representative; (b) be itemized (with reasonable detail) to fully describe each element of cost charged to Company and any negotiated early payment discounts and (c) if applicable, contain a certification acceptable to Company to the effect that all Subcontractors have been paid in full for completed Work as reflected in the immediately preceding invoice. For time and material Work, Contractor shall bill in accordance with Company 's billing instructions.
 - 3.4. Company may withhold payment of all or part of any invoice to such extent as may be necessary to protect itself from loss caused by: (a) defective Work not remedied; (b) claims filed or reasonable evidence indicating probable filing of claims by other parties against Contractor and/or Company in connection with the Work; (c) failure of Contractor to make payments properly to Subcontractors

for material, labor or equipment; (d) reasonable indication that the unpaid balance is insufficient to cover the cost to complete the Work; (e) reasonable indication that the Work will not be completed within the Agreement schedule; (f) unsatisfactory performance of the Work by Contractor; (g) failure of Contractor to perform any of its obligations under the Agreement; or (h) failure of Contractor to pay any amounts due Company. Company shall notify Contractor of the grounds for any withholding, and when the above grounds are removed, or Contractor provides performance assurance satisfactory to Company that will protect Company for the amount withheld, payment will be made of the amounts withheld. When deemed reasonable by Company, Company may use such funds to rectify the situation causing the withholding of funds.

- 3.5. To the extent permitted by law, Company shall have the right to set-off against any sums due Contractor under the Agreement any claims Company may have against Contractor under the Agreement or under any other contract between Company and Contractor, or that Company may otherwise have against Contractor without prejudice to the rights of the parties with respect to such claims. - 3.6. 4. TAXES.

- 4.1. Taxes on Company 's Purchases from Contractor. Contractor's price(s) and any Billing Rates that apply under the Agreement exclude any and all present and future Federal, state, county, municipal or other jurisdiction's sales, use, excise or other taxes that may apply to the Work and Company's purchase of the Work and any applicable present and future Federal, state, county, municipal or other jurisdiction's sales, use, excise or other taxes shall be included in invoices and separately identified and itemized. The Company shall provide any applicable tax exemption certificates to the Contractor upon the Contractor's request.
- 4.2. Taxes on Contractor's Purchases. If Company informs Contractor that Company has a tax exemption certificate or a direct pay permit that applies to a specified portion of the Work, Contractor shall notify its Subcontractors and suppliers that their Work performed for, materials supplied for Contractor's use in, and/or Equipment supplied for installation as part of the specified "tax exempt portion" or "direct pay portion" of the Work are either exempt from sales and use taxes or Company pays such taxes directly. Consequently, these Subcontractors and suppliers should not collect such taxes from Contractor and Contractor's prices and Billing Rates to Company should reflect such tax exemption or Company's direct payment on Contractor's purchases from Subcontractors and suppliers for the tax exempt or direct pay portion of the Work. Subcontractors and suppliers providing Work, materials and or Equipment for any portions of the Work that are neither tax exempt nor direct pay shall apply any normally applicable sales or use taxes to such "normal tax" portions of the Work and Contractor's prices and Billing Rates will be deemed to include any and all applicable taxes on such normal tax portions of the Work. If Company does not inform Contractor that it has a tax exemption certificate or a direct pay permit that applies to a portion of the Work, Contractor should presume that its purchases from Subcontractors and suppliers associated with the Work are subject to any applicable sales and/or use taxes on such purchases and Contractor will be deemed to have included any and all applicable taxes on its purchases from Subcontractors and suppliers in the prices and Billing Rates stated in the Agreement provided that any Billing Rates using markup percentages will not apply to taxes paid for such purchases.

- 4.3. Income, Property and Payroll Taxes. Notwithstanding any provision of the Agreement, Company shall not be required to pay or reimburse Contractor for any taxes levied against Contractor's income, property or payroll.
- 4.4. Non-Resident Tax Bonds. If required by applicable law, Contractor and all Subcontractors shall provide to Company a certificate of compliance with the non-resident contractor bonding provisions applicable to the Work. Contractor shall furnish such certificate to Company in the case of (i) Contractor, no later than the earlier to occur of thirty (30) days after the effective date of the MSA, or the date of commencement of the Work, and (ii) each Subcontractor, within the earlier to occur of thirty (30) days after Contractor's retention thereof, or the date of commencement of the Work under such subcontract. Absent such certificates, Company shall be entitled to withhold amounts otherwise due to Contractor hereunder in accordance with applicable law.

5. **CHANGES AND ADDITIONS.**

- 5.1. Either party may request changes or additions to the Work by submitting a written request to the other. Changes requested by Contractor shall not, however, be implemented until approved in writing by Company. All changes shall be made in accordance with approved Company procedures included in the Agreement documents or otherwise provided to Contractor.
- 5.2. Company shall have the right to require Contractor to delete from, change or add to the Work, in each case to the extent that any such deletions, changes, additions or other alterations are of the character described in the scope of Work, and to the extent such deletions, changes or additions are within the general expertise of Contractor Resources performing the Work. If such deletions, changes or additions are scheduled to be completed by or within six (6) months following the then-scheduled completion date for the Work as specified in the Agreement, such Work shall be performed at Contractor's time and material rates in effect for the Agreement, unless the parties agree in writing to another method of compensation.
- 5.3. If a deletion, change or addition will increase or decrease the cost or time required to complete the Work, the party requesting the change or addition will set forth in its request the appropriate adjustment to compensation or completion deadlines. Written acceptance by the party receiving the request for change or addition shall be a binding resolution between parties of the issues set forth in the request.
- 5.4. At no time shall the Work be delayed by Contractor due to a dispute between the parties concerning the cost or time required to accomplish a deletion, change or addition requested by either party.
- 5.5. Contractor shall not commence or undertake any portion of any Work for which it contends that any extra compensation or schedule adjustment is or will be owed or due or payable, without prior written authorization from Company, and such authorization shall be required for payment of any extra compensation to, or adjustment of any schedule requirement for the benefit of, Contractor. In all instances, Contractor shall orally notify the Company's Representative of any circumstances that could result in a change in the scope of the Work (or a claim therefor) as soon as possible after the occurrence of the event or incident, and in writing within twenty-four (24) hours after such occurrence. Thereafter, Contractor shall submit to Company appropriate detailed supporting documentation, justifying the basis for the claim, within ten (10) Business Days after the date of the event or incident giving rise to such claim. Without relieving Contractor of its obligations hereunder, any claims by Contractor for increased compensation or extension of completion deadlines shall be irrevocably waived and released unless Contractor provides such immediate oral notice and twenty-four (24) hour written notice and thereafter submits such detailed supporting documentation for the claim to Company within such ten (10) Business Day period.

6. **INFORMATION.**

- 6.1. If Contractor is required to provide Information, complete and accurate Information shall be submitted in sufficient time for review and approval by Company prior to starting Work affected by

such documents. All equipment and material shall conform to the details shown on Information approved by Company.

- 6.2. Once Information has been approved by Company, Contractor shall not make any changes in Information without the prior written approval of Company.
- 6.3. It is the obligation of the Contractor to review and evaluate the Specifications, and to promptly provide written notice to the Company of any errors, omissions or discrepancies that the Contractor discovers. Contractor shall immediately notify Company and request additional instruction in writing whenever Company -provided Information is found to be unclear, incorrect or conflicting. Contractor shall not undertake any Work based upon such Information until such discrepancy has been resolved by Company. The Contractor shall not proceed with uncertainty, and any cost incurred that could reasonably have been avoided through timely correction of the Specifications shall be the responsibility of the Contractor.
- 6.4. Preliminary, certified for manufacture, certified for construction and as-built drawings shall be submitted to Company for approval in the form requested by Company. Any drawing shall be produced in accordance with any Specifications and acceptable industry practices and shall be legible such that Company is able to clearly distinguish all characters and lines.
- 6.5. For Work that includes Information that is not prepared exclusively and solely for Company, Contractor shall retain title to any such Information (excluding any portion thereof that contains Company's Confidential Information) that is subject to Contractor's patents, copyrights, trademarks, service marks, intellectual property rights or proprietary interests provided that Company shall have unrestricted and non-exclusive rights and license to use such Information. For Work that includes Information that is prepared exclusively and solely for Company, all such Information is the proprietary Information of Company and shall be subject to the requirements applicable to Company's Confidential Information as set forth in Article 35 "CONFIDENTIAL INFORMATION" herein, whether or not each such document is so identified.
- 6.6. Contractor shall be responsible for the completeness and accuracy of the Information it provides and shall correct, at its expense, all errors or omissions therein. Without limitation of any and all other rights and remedies available to Company, the reasonable cost necessary to correct matters attributable to such errors shall be chargeable to Contractor.
- 6.7. Contractor shall provide Company with all Information necessary for Company's use and understanding of the Work and the installation, operation, maintenance and repair thereof, and to allow Company to satisfy any legal process, or any filing or disclosure requirement required under law or regulation or requirement of a governmental body. Except for Information deemed to be proprietary to Contractor under the terms of the Agreement, and except as set forth in this Article 6, all Information supplied or delivered to Company pursuant to the Agreement shall be the property of Company. Contractor may retain for its records only, copies of any Information furnished to Company, and unless otherwise agreed to by the parties, shall treat such Information in accordance with the requirements applicable to Company's Confidential Information.
- 6.8. Contractor shall keep such full and detailed accounts for proper financial management under this Agreement as Company may reasonably request. Contractor shall also promptly provide other information, copies of such reports, and other information reasonably requested at no cost to Company.
- 6.9. The interpretation of the Specifications shall rest with the Company's Representative, whose decision in any matter shall be final and binding, subject to the dispute resolution provisions of this Agreement. The Specifications are intended to state in general what is required for the Work, and the omission of minor details shall not operate to relieve the Contractor from the obligation to provide all things necessary for the completion in proper working order of the entire Work outlined therein in accordance with the best construction or industry practices.

7. **ELECTRONIC DELIVERY OF INFORMATION.** Company and/or Contractor may agree to exchange business data or information electronically using a point-to-point connection or a value-added network either directly or through a third party E- Business provider (collectively, "E-Business"). The parties recognize and agree that the electronic transmission of information, including attachments, and access to E-Business systems by Company employees, cannot be guaranteed to be secure from third party interception, error free or free from viruses or other damaging computer code, and that such information could be intercepted, corrupted, infected, lost, destroyed or incomplete, or otherwise be adversely affected during transmission or harmful to the recipient's computer system. Company and Contractor have each taken steps within their organization to reduce the foregoing risk, consistent with the industry practices; however, there can be no assurance that outgoing E-Business is free of the foregoing faults or that engaging in E-Business will not create any harm to electronic systems. If Contractor agrees to transmit information or documents relating to this Agreement using E-Business, Contractor shall be deemed to have accepted and be bound by the terms of this Agreement.
8. **DELAYS.**
- 8.1. **Schedule Commitment/Notice of Delay.** Time is of the essence with respect to the performance of the Work. Each party shall give the other prompt written notice of any circumstances that may delay performance of the Work including any Force Majeure (as defined in Section 9.1). Contractor shall notify Company's Representative of any such circumstance orally as soon as possible after such circumstance occurs and in writing within twenty-four (24) hours after the occurrence of such circumstance. Contractor shall record the cause of any resulting delay and the time lost in its reports and in its time sheets and shall submit such reports and time sheets to Company's Representative.
- 8.2. **Delays in Performance for Reasons Other Than Force Majeure.**
- a. Company may at any time request Contractor to delay performance, fabrication or delivery of all or any portion of any Work to be provided under the Agreement. Contractor shall use its best efforts to accommodate such delay. However, if Contractor is unable to accommodate all or a portion of Company's request, it shall notify Company in sufficient time for Company to take alternative measures, including directing Contractor to place the affected Work or portion thereof, including any equipment, materials or supplies, in storage at a site authorized by Company.
- b. Risk of loss and liability for Equipment, materials, and/or supplies placed in storage shall remain with Contractor until transferred to Company in accordance with Article 27 "DELIVERY, TITLE AND RISK OF LOSS TO EQUIPMENT AND MATERIALS".
- c. If Work or any portion thereof is ready for performance or shipment, but performance or shipment is delayed beyond the scheduled performance or shipment date by Company, the parties will adjust the payment schedule accordingly and for any Direct Actual Costs resulting from such delays, use good faith efforts to negotiate a change Company Work Order to address such costs.
- d. Contractor shall use best efforts to complete the Work in accordance with the Work schedule. If the Work falls behind schedule due to acts or omissions of Contractor or any Contractor Resources, Contractor shall, at its sole cost and expense, use its best efforts to restore the Work to schedule, including placing Contractor Resources on extended working hours, assigning additional resources to the Work, and establishing expedited, priority treatment for the acquisition, fabrication and delivery of the equipment, materials and supplies necessary to complete the Work within the time set forth in the Agreement.
- 8.3. **Off-Site Delays.** If Work at an off-Site facility is delayed by Contractor, Company shall be entitled to compensation for its documented direct, actual costs for each such period of delay.
- 8.4. **Limitation of Liability for Delay Damages at Site.** The parties agree to limit liability for damages incurred by delays at a Site as follows:

- a. At any point after Company orders Contractor to start the Work, Contractor's delay shall be deemed to commence when the Work location or Work site becomes available for the Contractor's performance of Work but the Contractor, in whole or in part, does not perform the Work, and such delay shall be deemed to cease when the Contractor resumes Work performance in accordance with the Agreement terms. For delays caused by Contractor, Company shall be compensated for its actual costs to accommodate or mitigate the impact of each Contractor delay.
- b. At any point after Company orders Contractor to start the Work, Company's delay shall be deemed to commence when Contractor Resources are able to be present at the Work location and able to perform the Work but are prevented by the Company from performing such Work and such delay shall be deemed to cease when Company no longer prevents such performance. In the event of a delay requested by Company, or a delay caused solely by Company's negligence, to the extent Contractor has incurred labor costs caused by such delay, Contractor may be compensated pursuant to Section 8.4.3, in amounts determined by Company in its sole discretion.
- c. The duration of delay shall be computed in increments of one (1) hour. Compensation for each party's direct labor costs shall be made only to the extent that a party actually incurs direct labor costs, if any. The delayed party shall use commercially reasonable efforts to minimize the costs it incurs for each delay by rescheduling its activities, redeploing its work force, or by other appropriate action. The parties shall consult at least weekly concerning delays, Contractor shall provide Company with documentation relating to such delay as requested by Company, and Company shall maintain a log of each party's delay. Compensation for delay shall be made at the completion and Acceptance of the Work by determining the total number of hours of delay for each party and subtracting the lesser number of hours from the greater to establish the party with a delay balance. Contractor shall be compensated for the lesser of (i) its delay balance or (ii) the number of working hours (not to exceed eight (8) hours per day) the Work is delayed beyond the scheduled completion date due to the request of Company, or the sole negligence of Company.
- d. Contractor is not eligible to be compensated for delay unless it provides written notice of such delay to Company within the period specified in this Article.

9. **FORCE MAJEURE.**

- 9.1. Neither party shall be liable to the other for loss or damage resulting from any delay or failure of a party to perform its contractual obligations due to conditions or circumstances which are beyond that party's control, including: acts of God; war; acts of a public enemy; riot; civil commotion, sabotage; Federal, state or municipal action, regulation; strikes or other labor troubles (excluding those involving such party's employees); fire; flood; government mandated quarantine restrictions; embargoes; damage to or destruction in whole or in part of a manufacturing plant, to the extent such facilities are necessary to proper performance of the party's obligations under any Agreement and alternate facilities are not reasonably available; provided however, that such failure or delay is not caused by that party's failure to satisfy its obligations under the Agreement or could not have been prevented by reasonable precautions taken by the non-performing party or could not reasonably be circumvented by the non-performing party through the use of alternate sources or plans or other means.
- 9.2. Force majeure shall extend the time for Contractor's performance to the extent such condition directly affects completion of Work. Contractor shall use its best efforts to reschedule its Work to mitigate the effect of such condition and to eliminate such condition as soon as possible. If the Work falls behind schedule due to a Force Majeure, Company may direct Contractor to accelerate the Work by whatever means Company may deem necessary, including subcontracting Work or working additional hours or shifts, and Company may pay Contractor for the agreed Direct Actual Costs incurred by Contractor in connection with any such directed acceleration.

9.3. Neither this Article nor any other provision of the Agreement shall excuse the non-performance or delayed performance of Contractor due to any failure of the Contractor to prepare for the Work or commercial impracticability experienced by Contractor, including market changes, skilled labor supply, increased costs or insufficient money.

10. **INSPECTION.**

10.1. Contractor shall advise Company in writing of each location where Work is being performed or where materials or Equipment are being manufactured, stored, or prepared for use under the Agreement, in each case, reasonably in advance of conducting such Work or storing such items to allow Company to witness or inspect the same. Contractor shall, on behalf of itself and its Subcontractors, provide unrestricted access to such locations for inspection of Work.

10.2. Contractor shall provide Company timely notice of the date of all tests affecting the Work, and provide test results promptly to Company. Company shall have the right to inspect the status of all Work at the facilities of Contractor and its Subcontractors, as well as at the Site. Such inspections shall be conducted upon reasonable advance notice to, and during the working hours of Contractor Resources. Such general inspection rights are in addition to, and not in limitation of, any and all inspection and testing rights of Company set forth in the Agreement. Company's approval of Work shall in no way reduce or modify Contractor's obligations to meet performance and other requirements of the Agreement. By such approval, Company in no way assumes any part of Contractor's responsibility for the satisfactory performance of Work.

10.3. Inspection of Equipment or materials during manufacture will be performed by Company solely in an effort to detect discrepancies and defects as early as possible. No Acceptance of Equipment or materials shall be construed to result from such inspections by Company.

10.4. If any Work should be enclosed without Company's inspection, Contractor shall, at Company's request, uncover the Work, allow an inspection and properly restore the Work all at Contractor's expense. Company's Representative may order reexamination of any Work.

11. **REQUIREMENTS FOR ACCEPTANCE.** Acceptance of Work shall be conditioned upon Contractor submitting to Company's Representative the following:

- a. written notice that the Work is ready for final inspection;
