Support Worker

About Me

I have a strong passion for arts and crafts, and I enjoy expressing my creativity through a variety of projects. Some of my favourite hobbies include crocheting – particularly making blankets, stuffed toys, and beanies – as well as working on small sewing projects and creating diamond dot artworks. I also enjoy developing new skills and recently taught myself how to do my own acrylic nails, which has become another enjoyable and rewarding creative outlet.

I consider myself to be a positive and bubbly individual who is approachable, friendly, and easy to talk to. I genuinely enjoy connecting with others and am always willing to offer help and support whenever I can. I take pride in creating a warm and inclusive environment where people feel comfortable and valued.
