MAMBA VIPER MKII

PERSONALITY

MAMBA VIPER MKII

Mamba MKII is engineered as a stealth performance system, where precision design meets unapologetic aggression. Sculpted to evoke the poised head of a Black Mamba, its silhouette is a study in aerodynamic tension — sharp, low-slung, and relentlessly fast.

Built for those who move with intent, Mamba embraces a stealth-first philosophy. Surfaces are seamless, transitions are engineered, and branding is integrated with surgical subtlety — visible only when it needs to be. Every material, from its matte-finished composites to its responsive underfoot chassis, is chosen for performance, weight efficiency, and tactile sophistication.

Mamba doesn't demand attention — it evades it. Until it strikes.

PERSONALITY

ENDOR

Endor embodies the ethos of a high-performance, ultra-professional training shoe — engineered for athletes who demand versatility without compromise. Designed to adapt across disciplines, its modular sole system delivers optimized traction and responsiveness for gym training, court sports, and boxing alike.

At its core, Endor is about precision fit and elevated function. The bold, sculpted heel counter features the signature VaderPro band — a defining element that commands attention while anchoring the shoe's identity in confidence and control.

Endor doesn't just perform — it defines presence.

VANTA

PERSONALITY

VANTA

Vanta redefines the traditional training flat with a minimalist philosophy and a bold material narrative. Stripped of excess, it embraces precision simplicity — allowing form, texture, and tone to take center stage.

Designed for the discerning athlete, Vanta explores unconventional material contrasts and tonal subtleties to resonate with a wide spectrum of style palettes. It's a statement of restraint — crafted for those who seek performance without noise.
