

## ABOUT US

Our goal is to be your trusted source for on-site service, engineering solutions, and custom parts within the elevator industry. Our team has established a reputation on providing exceptional support for new installations, modernization, and maintenance departments across Ontario.

At High-Rise Elevator, we're dedicated to ensuring your safety and compliance with all applicable codes and regulations. Our solutions provide easy access to equipment by working closely with your field operation experts. We're proud to offer over 25 years of professional hands-on elevator experience, including field installations, engineering, manufacturing, and project management.

Our team boasts a range of professional education and certifications in mechanical design engineering, TSSA license requirements, and project management. We're also proud to partner with local sheet metal and machine shops to ensure reasonable pricing and lead times that meet our customers' expectations.

We look forward to working with you and delivering top-notch service to your elevator operations.
