

OUTBACK[®]

PLUNGE POOL

OPTIONS
& PRICING

Timeless tradition meets modern elegance.

Step into over 200 years of Australian heritage with the Outback Plunge Pool—where timeless tradition meets modern sophistication. This elegant, cost-effective plunge pool is designed for easy maintenance and versatility.

Crafted in Australia, the pool shells are made from premium 316 Stainless or COLORBOND[®] Steel, ensuring durability and style in any environment. Inside, you'll find a comfortable bench seat and step, all lined with a top-of-the-line Aqualux[®] commercial waterproofing liner for lasting protection and superior chemical resistance. Plus, the pool comes complete with a pre-plumbed, mineral-ready equipment kit, fully assembled and ready for you to connect, fill, and dive in!
