

RULES AND REGULATIONS

16. The event winner will be determined by the total team points. Time will be used as a tie breaker in each event. The overall winner will be determined by the overall team points and the total overall time will be used as a tie breaker.

All ties that affect the overall outcome or any prize award will be settled at the conclusion of each event. Three measures are in place to address ties and will be applied in this order.

1. Total event time (individual raw time in each event in question)
2. Total overall time (total raw time for every event so far)
3. Total overall points (total team score so far)

17. All teams shall report to the event staging area when scheduled. Any team that fails to report for their scheduled run shall be disqualified for that event unless exigent circumstances exist. It shall be the duty of the team leader to report any exigent circumstances to the line judges and the coordinator. They shall determine if an exigent circumstance delay is permitted.
18. Only the event competitors will be permitted inside what is established as the range perimeter. This will be set by an obvious boundary.
19. Any team that receives any material of physical assistance from outside their own two man team during the course of an event will be disqualified. This rule does not apply to medical emergencies or perceived emergencies, and is not intended to preclude anyone from cheering or shouting advice.
20. Any and all protests must be made by the team leader, to the line judge for that event within 10 minutes of the completion of the event in question. If the team leader does not agree with the line judge's decision, he may appeal it to the decision of the conference coordinator. The decision of the conference coordinator will be the final decision. All reasonable efforts will be made to settle the protest. Video replays shall be allowed during the appeal if the protesting team has video and so chooses. Conference video will not be available for these purposes. Video replays showing violations of another team will be absolutely prohibited.
21. No alcohol is permitted on any part of the range at any time. Competitors found in possession of or under the influence of alcohol will be disqualified from the competition.
