

RULES AND REGULATIONS

22. Any handling of another team's equipment without the permission of that team will result in an immediate team expulsion from the conference.

Competitors shall maintain the integrity of the event and the respective departments that they represent. Misconduct of any kind during the event or at any event related activity will not be tolerated. This will reflect negatively on everyone involved, and could threaten the future of this event. The event sponsors and staff want everyone to have a good time but we must do so in a professional manner. The Gastonia Sniper Conference Committee has gone to great lengths to make this a fair and transparent competition for all teams.

The conference staff reserves the right to make any necessary changes to any rule with reasonable notice to the competitors. Although the event staff tries very hard to avoid errors, they do occur from time to time in an event this size. Any error discovered in scoring, rules, rule application, or anything else will immediately be brought to the attention of **all competitors** and corrected.

A team leader or his designee will attend every scheduled briefing.
