Our office highly supports the creation of the Canadian Peace Museum, and the efforts of Chris Houston and the entire Board to bring this important institution to full fruition.

In a world that all too often fails to prioritize peace, I am incredibly pleased and grateful to the Board of the Canadian Peace Museum for their commitment to growing the seeds of kindness, peace and love in all parts of the world from a small space in Bancroft, Ontario.

I look forward to seeing the Museum break ground, build and grow – and perhaps with it, the growth of Peace across our province, our nation, and hopefully someday our World.

Sincerely,
