

Lasting Beauty

Well-built Aesthetics

Low profile and clean lines help enhance exterior beauty. With a 22 gauge Galvanized **and** powder coated steel body, the Dryer Wall Vent is the last vent a home will ever need.

Ease of Installation

Engineered for a quick, perfect fit in both retrofit and new construction, total replacement time can be as low as four minutes.

Airflow Efficiency

The lightweight damper and clean opening maximize efficiency and exceed all code requirements. Less airflow restriction helps save on energy bills, drying time and appliance wear.
