

THEBELLOFCAMDENPOINT.COM

Welcome

The story of The Bell of Camden Point begins while looking for a barn venue for our daughter's wedding. We found a beautiful farm in Camden Point which we felt was just perfect. We joined some dear friends to make this a dream come true, and the life of The Bell came into existence. Once a tobacco barn, then recently a 4,500 sq ft horse arena, we remodeled it into a gorgeous space for weddings. We repurposed all the natural hardware from the horse arena, selected crystal chandeliers to compliment the original rustic hardware to make an elegant 5,200 sq ft reception hall. In the works, are future plans of an adjacent indoor chapel to join our venue. We are a new venue that is now open and booking tours and weddings. We are conveniently located just 15 minutes from the Kansas City Airport off of I-29. We are situated on 40 beautiful secluded acres that will make your special day even more memorable. We take pride in our setting promoting memorable family moments.

We can't wait to meet you.
