

Non-Covered Services Fees

January 2024

Since July 2023, Dr. Bridges has asked her patients to pay a monthly fee in order to continue care with her. This fee covers administrative services not covered by insurance plans as well as the time she spends on patient care outside of visit time. These fees will also allow for a smaller practice & more flexible scheduling of current patients. Patients that opt out can choose a per-visit fee, to continue care with LIM associate Dr. Hawthorne, or to have records transferred to an outside physician or facility.

Monthly NCS Fee:

This will allow patients who purchase products routinely to receive an increased discount (20% off Fullscript), more flexible scheduling, and continued quality care. Insurance for visits and procedures will be billed as usual. There are limited spots available for NCS fee patients so that Dr. Bridges can successfully manage her practice and accommodate for more flexible scheduling.

NCS Monthly fee:

Adult: \$30/month

Each additional family member: \$10/month (after 1st adult)

Senior: \$20/month

Child: \$20/month

What if I only have a couple of visits/year?

That's Ok! You can opt out of the monthly fee and pay a per-visit fee:

Adult: \$40/appt.

Child: \$30/appt

Senior: \$30/appt

Leavenworth Integrative Medicine

What does the Fee Cover?

- Easy messaging in the Charm portal*
 - Management of our pediatric vaccine program
 - Coordinating insurance and pharmacy authorizations
 - Coordinating claim reimbursements
 - Additional paperwork, lab orders and coordination of care between appts
 - Flexible scheduling when needed with less wait time
 - 20% off supplements in Fullscript (for monthly and prepaid yearly members), all other patients receive 15% Fullscript
-

What If I cannot Afford the Fee?

We understand that this model or fee may not be economically feasible for everyone. Please contact Dr. Bridges in your Charm patient portal or call the office to request scholarship assistance for established patients only (very limited # available) or to help with a smooth transition of care to a new provider.

**Dr. Bridges reserves the right to differentiate when email communication needs to be transitioned into an appointment (either phone/Zoom or in office).
