

Hi Parents!

Welcome to Miss Aimee's! Listed below is an outline of DHEC's basic rules on sick kids in childcare. Miss Aimee's will not care for children who are mildly ill. Parents will be notified that their child is sick and needs to go home. We must follow DHEC's policy, this is non-negotiable, but in some cases Miss Aimee's rules are slightly stricter than DHEC to prevent germs from spreading quickly and to keep everyone's children happy and healthy.

Fevers of 101.0 must go home and be out 24 hours fever free without fever reducing medication.

DHEC changed their vomit policy to two vomits and the child must go home. Miss Aimee's school policy will remain the same, if your child vomits at school they must go home and be vomit free for 24 hours.

DHEC changed their loose bowel movement policy from three to now the child has to go home after two. They cannot return to school until their bowels are normal for 24 hours.

DHEC lice policy is that there can be no live lice moving in the head and nits have to be less than 1/3 of an inch large in order for a child to attend school or daycare.

If a child is unable to participate in normal activities due to cold symptoms it is up to the teacher and director's discretion to send the child home. This is per DHEC

With Pink Eye the drops must be started within 24 hours of the child's return unless the doctor notes otherwise.

Please review and sign this policy stating that you understand DHEC and Miss Aimee's school sick policy.

Thank you,
Miss Aimee and staff!
