

What is the Republic of Albion?

It is simply we the people, governing ourselves; a nation of sovereign men and women where the common law and not a ruler is supreme.

We stand in the tradition of Magna Carta and the English Republic of 1649, which lawfully abolished the British monarchy and declared that all people are equal. So too do we affirm that the land and its wealth belongs to all the people and not to a wealthy few.

Standing arm in arm with new common law Republics in Canada, America, and other nations, Albion is a grassroots democracy where its citizens pass and enforce their laws through their own courts, and where power lies in local Assemblies where the people govern directly.

Officially established at Runnymede on September 21, 2025 with the hoisting of its flag and Proclamation of Independence, the sovereign Republic of Albion replaces the corrupt, criminal regime calling itself the Crown of England.

Within the Republic's Constitution, which is our new nation's highest law, the wealth of the nation is held in common by and for all the people. Income tax is abolished, debts are canceled, education and health care are made free, and poverty is eradicated by a 'Robin Hood' tax on the super wealthy. Foreign control of the economy is abolished and a moratorium is declared on all immigration.

The Republic of Albion is only as strong as we the people make it. So become a citizen now and disavow your allegiance to the fiction called 'the Crown'. And forge the Republic where you live and work by forming a local Assembly to take back our nation.

It is time to live free as citizens or die enslaved to a corporate tyranny.

It is time to choose.
