THE LATINO HEALTH INSURANCE PROGRAM

Free phones

Telecommunications program. (LHIP)

Its original value
$799.00

Google - Pixel 10 128 GB (unlocked) - Indigo

What customers say.

Customers praise the exceptional camera quality and the device's overall performance, describing it as fast and smooth. Many appreciate the long battery life and efficient charging speeds, which keep the phone ready for daily use. While the design and color often receive praise for their premium look and feel, some users note that the device can be slippery without a protective case.

Discover the Pixel 10, the new benchmark for professional phones. Advanced artificial intelligence with Gemini, incredible camera quality—including amazing HD video—an impeccable design, and the next-generation Google Tensor G5 chip.[1]

Designed for durability. Made for everyday use.

The Pixel 10 is crafted from premium, highly durable materials, featuring an elegant design that feels comfortable and secure in the hand. It withstands spills and drops. Plus, its Actua display—with a peak brightness of 3,000 nits—is easy on the eyes, even in direct sunlight.

Realistic photos. Spectacular editing.

The triple rear camera system features 20x Super Res Zoom to capture stunning details from a distance. Snap group photos everyone will love with the Auto Best Take feature. And use Night Sight to get crisp, clear photos in low-light conditions even capturing the Milky Way with astrophotography.

Share your camera in Gemini Live to talk about your surroundings.

Point the camera at something that sparks your curiosity like a sea creature at the aquarium and chat naturally. Ask things like, "Gemini, what kind of shark is that?"

¿No cell signal?
No problem.
