October 5, 2018
Complete Healthcare Solutions, Inc
UnifiMD® version 2.0

To Drummond Group:

UnifiMD® EMR software system pricing is based on modules that are offered to our customer base in a designed package. Complete HealthCare Solutions, Inc. agrees that any and all adjustments made to the pricing structure are listed below for the UnifiMD® version 2.0.

Complete HealthCare Solutions, Inc. understands and agrees that ONC HIT Certification program final Rule statement gives Drummond Group LLC, an ONC-ACB, the sole responsibility for ensuring compliance and determining appropriate consequences if EHR technology developers fail to disclose accurate price transparency information.

Complete HealthCare Solutions, Inc. understands and agrees to provide Drummond Group LLC copies of or be given access to any and all websites, marketing materials, communication statements, and other assertions made by Complete HealthCare Solutions, Inc. regarding the ONC certification status of UnifiMD® in a reasonable time to ensure the price transparency information is being accurately disclosed.

UnifiMD® software cost is available in both a one-time license payment structure and an ongoing payment structure. Complete HealthCare Solutions, Inc. determines which option is best. We base this on the customer's current practice management setup and discovery of the practice's specific needs. The certified product may require additional database fees, this is dependent on the practice's current environment, and evaluation of needs.

Complete HealthCare Solutions, Inc. one-time license structure offers our clients a set fee for the UnifiMD® software system licensed to their specific practice based on the number of Providers.

Complete HealthCare Solutions, Inc. ongoing payment structure is a practice's full package offering with a contracted term of use. The practice agrees to host their database on the Complete HealthCare Solutions, Inc. cloud servers. Those fees include software license, access to database, software support, offsite backup solution, Dr. First E-prescribing (when applicable), software upgrades and services packs, document management support, and portal access.
