## Integrated Lab Results

CHS has done it again, we have created our very own, homegrown, UnifiMD lab results interface platform that integrates with various Practice Management systems! Oh no, this is not another 3rd party company connection. Currently, we have electronic lab results with LabCorp, Quest, CPL and Baystate, but we have the ability to connect to any others! If your customers have a specific request for connections to any other labs - please talk to us about it. Fast and easy set up with almost no support or maintenance. With other lab results, it's painful when the compendiums don't match, well with ours, you will not have that problem since the reconciliation is very easy. You will be able to simply retrieve, review, manage, file and graph results.

No more watching the fax machine. You can compare current and past results, get alerts for abnormal results and our advanced reporting will allow you to deliver safer and more reliable care.

Be sure to join us for a webinar and in-depth demo on our integrated Lab Results platform on **Wednesday, February 17th at 3:00pm EST**. Look for your emailed invitation to register.

## Just For Fun

*Pet of the month...*

This is Sir Skittles. Born 11/9/12. Rescued at 7 weeks old from P.A.L.S. in WA. He's a miniature pinscher, chihuahua, dachshund mix. Nicknames - "Sir-Skits-A-Lot" for his love of music and "Beans" for his love of edamame beans. He gets steak and carrots for his birthday meal! "He's my very best pal and always makes me happy and laugh. I don't know what I would do without him. "
