

CAT I™
standing frame

Standing frame **CAT I™** was created with a view to help children in adoption of the upright position. The upright standing contributes to the acquisition by children a new experience from the nearest environment and stimulates their psycho-physical development. In addition, it regulates the physiological processes and oxygenates the body of the child. There are many advantages during use of the **CAT I™**

Adjustable tilt angle (from **25°** to **85°**) even with a child in the device. Extensive system of belts and supports makes the child feel safe and secure.

As far as this product is concerned, it is made of ecologic and environmentally friendly materials, and is also hand painted.

IT IS RECOMMENDED IN THE FOLLOWING CASES:

- Cerebral palsy – various types and forms.
- Brain and spinal cord injuries with lower limbs paralysis and weakness, balance and motor coordination disorders with different etiology.
- Demyelinating disease (e.g. multiple sclerosis – SM).

Safety

TANGO Wheel 75/100/125mm

Noiseless, easy to maintain, does not leave marks, does not corrode.

Stabilization

Footplates with 3-dimensional adjustment.

They allow for a smooth foot setting in all directions thanks to the use of the hinge ball. You can correct your foot setting on the footplates (front/back, left/right) and also set your foot in space (plantar/dorsal flexion, pronation/supination of the foot).

Head supporting belt

Attachable to the headrest by use of Velcro straps. Indicated for people with muscle weakness to prevent falling of the head.

Comfort

Tray for manual therapy

The tray allows active exercises assisting upper limbs with a particular focus on palm function.

Tray with bowl

More toys or other therapeutic items can be put into this bowl now.
