

BODYMAP

Version: 23.05.2018

BodyMap® System refers to first class medical products which are designed for adults as well as children with cerebral palsy. All these products provide perfect stabilization during seating or lying position. What is more, it is a perfect choice for the disabled due to the fact that it prevents bed sores and muscle stiffness.

INCLUDED:

	Vacuum pump Handy, small vacuum pump, ideal for small and medium-sized cushions.
	Large hand pump Highly efficient manual pump. Ideal for mattresses and big cushions.
	Self-adhesive function The bottom of selected cushions is covered with self-adhesive function. Various elements can be easily attached to it with Velcro tapes which helps while stabilizing patients in the cushion or mounting the cushion in the desired place, e.g. in the stroller or a car seat. In other cushions, the self-adhesive function is made on request.
	Repair kit For each cushion is added repair kit, which features a tube of neoprene glue, a set of patches and instruction manual.
	Valve with chain. The pump valve is small and easy to lose. With the chain you'll never have to search for it.

(1) IN CASE OF ORDERING THE CUSHION WITH A SELF-ADHESIVE FUNCTION, ITS PRICE INCREASES.

Strongly recommended for large cushions and mattresses	 \$559

ADDITIONAL EQUIPMENT

CODE	NAME			MSRP(CDA)
<p>WG/1 18x26 cm 50 g granules</p>	<p>GRANULES</p>	<p>Bags are created so as to have control over the amount of granules in BodyMap® cushions. It is highly beneficial due to the fact that it is possible to adjust BodyMap® cushions to user's needs. It is necessary to take the size of BodyMap® cushion into account while choosing the size of bag with granules. There is a key added to the bag which facilitates opening and closing the service valve in order to add or decrease the amount of the granules.</p> <p>BodyMap® cushion has to be equipped with service valve in order to pour in or take out granules. The service valve (ZW) is custom-made.</p>		<p>\$83</p>
<p>WG/2 28x48 cm 200 g granules</p>				<p>\$157</p>
<p>ZW</p>	<p>VALVE</p>	<p>The service valve together with the granule bag (WG/1 or WG/2) makes it possible to control the amount of the granules in the BodyMap® cushions. Service valve is situated at the back of BodyMap® cushion thanks to which it is not very visible and, moreover, it is not an obstacle while using the product. What is more, it is really easy to use it – you just need to unscrew cork and either pour in or take out specific amount of granules. WARNING! You must order the granule bag (small – WG/1 or large – WG/2) separately if you want to add the granules to the BodyMap® cushions.</p>		<p>\$96</p>
<p>OU</p>	<p>UTILITY HOLE (1 PIECE)</p>	<p>NOTE! In each of the cushions, there is a possibility to make utility holes of any shape and size. The holes allow eg. installation of stabilizing belts, vests, etc. WARNING! The price applies to one hole.</p>		<p>\$124</p>

<p>PP</p>	<p>SUPPORT FOR THE FOREARM</p>	<p>It is universal and durable support with wide range of adjustments. Designed for stabilizing the upper limbs with BodyMap® System. Perfect for hemiplegia and hemiparesis to support and relieve upper limbs with paresis or palsy. Thanks to universal grip the support can be mounted on wheelchairs, special needs strollers, etc. This support is designed for use with BodyMap® E cushion. We can fix the cushion on the support using velcro tapes available in our offer also. WARNING! The price of the support does not include the BodyMap® E cushion, which must be ordered separately.</p>		<p>\$336</p>
