

**NOOK™**  
positioning chair

It is a corner rehabilitation chair which helps children and young people to adopt the correct sitting position with upright legs. It is worth saying that this position enforces the correct alignment of hips.

It is recommended as the first therapeutic chair.

Ergonomic pelottes and abduction block with pelvic belt not only make the patient feel secure but also control the correct posture. Additionally, a vast array of adjustment is beneficial due to the fact that children grow fast.

The **NOOK™** seat is available in a **universal size** and therefore it is perfect for children as well as young people who are from 6 months to 12 years.

This device is both light and small thanks to which you can easily move the chair into different places.

## IT IS RECOMMENDED IN THE FOLLOWING CASES:

- Cerebral palsy – various types and forms.
- Brain and spinal cord injuries with lower limbs paralysis and weakness, balance and motor coordination disorders with different etiology.
- Demyelinating disease (e.g. multiple sclerosis – SM).
- Meningocele.
- Muscles diseases with weakness and paralysis (dystrophy, myasthenia gravis, myositis).
- Genetic disorders.
- Degeneration and neurological diseases.
- Other condition connected with muscles weakness, paralysis and musculoskeletal disorders.
- After head and spinal cord injuries and spine trauma with paralysis and paresis.

## STANDARD EQUIPMENT:

## Safety

### Soft cover for tray

Soft cover protects the user from hitting the tray. Indicated for patients with impaired limbs coordination.

## Stabilization

### Hexagon Pro™ headrest

Headrest adjustable in three dimensions. Due to its special design, it can be precisely adjusted to the user's needs.

### Extended headrest

For patients with increased head circumference. It provides better side stabilization.

### Head supporting belt

Attachable to the headrest by use of Velcro straps. Used for people with limited control of the head to prevent its falling.

## Comfort

### Headrest cotton cover

It helps to keep the headrest clean. Easy to assemble/disassemble, it can be washed.

### Swivel castors (5pieces)

Mounted to the base. They allow easy movement between rooms.
