

# Award winning motion activated projections for adults with special needs

## OM INTERACTIVE

We are a pioneering interactive technology company who were the first in the world to introduce motion activated projections to Day Centres and Special Needs settings in 2005. We have led the way in developing sensory environments that encourage participation at all levels, delivering meaningful person-centred activities for all ages and abilities.

## INTERACTIVE PROJECTIONS IN SN SETTINGS

At OMI we've long understood the value that interactive projections can have in supporting and developing:

- **Language and communication skills**
- **Coordination and physical ability**
- **Socialisation and collaboration skills**
- **Positivity and emotional wellbeing**

It is widely acknowledged that all adult learners, regardless of ability, need regular opportunities to actively:

- **Participate in meaningful activities**
- **Share experiences with others**
- **Be stretched and challenged**
- **Have their contributions valued**

*"We were so lucky to win a Mobii at the National Care Awards 2018. Our residents have learnt so much from using it and it's been a fabulous way for them to interact with one another and have fun. There are such a variety of games and activities, I'd strongly recommend it to anyone thinking of buying one."*

**Mary Callaghan, Manager  
Tudor Lodge, IOM**

Recent neurological findings continue to support the claims that regularly involving people in activities which stimulate movement, communication and mental engagement will always be beneficial and ultimately enhance their quality of life.

**In those who have used our systems, professionals have witnessed positive changes in:**

- Physical effort/energy levels
- Social involvement and interaction
- Ability to share and enjoy group activities
- Emotional wellbeing and outlook
- Character development
- Sensory awareness

*“The Mobii has been absolutely fantastic for our service users, to see their eyes sparkle with pleasure using this amazing sensory experience is incredible. Whether it’s sitting by the lagoon, bursting bubbles or doing a quiz, its everything we hoped for and more... just what our service needed.”*

**Nicole Woodgate,  
Assistant Manager, Borehamwood Day Service**

## ADULT SN SUITE

This Suite has been designed to include elements that will enrich the learning experience, engaging people both physically and mentally and providing opportunities for active participation, relaxation and fun.

**The wide variety of Apps include:**

- Scenes and sounds from nature including virtual water effects and therapeutic colouring
- Meaningful social activities to aid communication skills and promote collaborative effort
- Interactive quizzes to develop recall, promote personal choice and encourage group discussion
- Physical challenge games to engage and motivate through movement and shared enjoyment

Lease options available  
please ask for details!
