IntelliQuad and IntelliQuad PLUS Replacement Program Update

NOTIFIER announces updated IntelliQuad and IntelliQuad PLUS replacement detector policy.

The IntelliQuad Advanced Multi-Criteria Fire Detector and IntelliQuad PLUS Advanced Multi-Criteria Fire/CO Detector remain the world's most accurate fire detectors, with IntelliQuad PLUS providing the ability to monitor and process carbon monoxide (CO) as a distinct signal. As with all carbon monoxide sensors the CO cell within these detectors will reach their end of life 6 years after initial installation.
