Harrison County
Engineer's Office
301 N 6th Ave, Logan, IA

❒ ***Check here if you have indicated any special instructions on the back.***

We, the undersigned do hereby request Husker Chem to make **two applications** of dust suppression in the described location with the permission of the Harrison County Road Department. The applicant agrees to the following:

1. **DEADLINE FOR SIGN-UP IS APRIL 30TH t.** Cost will be paid by the property owner direct to the contractor. The Harrison County permit fee is included as indicated above and Husker Chem will forward the fee to the county.
2. To place approved flags identifying the outer limits of the area to be treated with dust suppression. **Flags must be in place by APRIL 30TH and kept visible until October 1st.** Using flags will serve to visually remind the blade operator as to the location of the treated area. Failure to identify the treated area may result in your dust control being bladed through. Neither Harrison County nor Husker Chem Sales assumes any liability if your flags are not in place. If your flags are not in place when the contractor comes to treat your spot, they will center your application on your house.
3. Harrison County reserves the right to scarify and maintain as a rock road any portion of the treated area that in the opinion of the county engineer has become a liability to the general public due to chuck holes, edge ruts, etc. Harrison County does not warrant, nor will we pay to place dust suppression. All dust suppression is subject to blading after **October 1st in** preparation for winter.

Note: Neither Harrison County nor Husker Chem Sales can assure proper maintenance and application unless flags or stakes are in place on BOTH SIDES of the roadway and at BOTH ENDS of the area to be treated. This helps both the blade operator and our driver understand where you want your dust suppression.

I have read the terms of this permit and I agree with them.
