☐ ***Check here if you have indicated any special instructions on the back.***

We, the undersigned do hereby request Jerico Services to make **two applications** of dust suppression in the described location with the permission of the Jasper County Road Department. The applicant agrees to the following:

1. **SIGN-UP DEADLINE IS APRIL 30TH.** No applications can be accepted after this date for the first application.
2. To maintain Jerico flags identifying the outer limits of the area to be treated. **Flags must be in place by APRIL 30TH & must be visible until October 1st.** This will inform the blade operator of the location of the treated surface. Failure to identify the treated area with Jerico flags may result in the treated area being bladed through. Neither the county nor Jerico Services assumes any liability if your flags are not in place. If your flags are not in place when the application is to be made the dust suppressant will be centered on your residence.
3. If, in Jasper County's opinion, sufficient deterioration has developed on a treated area to become a liability to the traveling public, or if the road conditions dictate that maintenance is required, the road department will perform the necessary maintenance. **Jasper County at no time will be responsible for the cost of re-treatment of the affected area.**
4. The cost for dust suppression includes a county required administration/maintenance fee of 16.7¢ per foot.
5. Any questions regarding the product performance should be directed to Jerico Services.
6. **LIQUIDOW™ Calcium Chloride** is a very effective dust suppression product; however, Jerico Services does not guarantee the performance of the product due to factors such as weather, surface preparation or heavy traffic patterns.

I have read the terms of this permit and I agree with them.
