Markers may be picked up at:

Mills County
Engineer's Office
403 Railroad, Glenwood

☐ ***Check here if you have indicated any special instructions on the back.***

We, the undersigned, hereby make application to Mills County for permission to **apply two treatments** of dust suppression in the described location. The Applicant agrees to the following:

1. **DEADLINE FOR SIGN-UP IS May 3rd.** Cost will be paid by the property owner direct to the contractor.
2. To place markers identifying the outer limits of the area to be treated with dust suppression. **Markers must be in place be May 3rd and kept visible until October 1st.** Using markers (provided) will serve to visually remind the blade operator as to the location of the treated area. Failure to identify the treated area may result in your dust suppression being bladed through. Neither the county nor Husker Chem Sales assumes any liability if your flags are not in place. If your flags are not in place when we come to apply your dust suppression, we will center on your house.
3. Mills County reserves the right to scarify and maintain as a rock road any portion of the treated area that in the opinion of the county engineer has become a liability to the public due to chuck holes, edge ruts, etc. Mills County does not warrant nor will we pay to place dust suppression. All dust suppression is subject to blading and rocking after **October 1st.**
4. Mills County will secure quotes and schedule the application of the dust suppression. This dust suppression program is in cooperation with the Mills County Engineer.

NOTE:
TO BLADE WITH PROPER MOISTURE DOES NOT DETRACT FROM THE PRODUCTS ABILITY TO SUPPRESS DUST.

I have read the conditions of this service and agree with them.
