1105 East Court, Winterset
- ◆ **Heartland Coop**  
106 Main Street, Booneville

Check here if you have indicated special instructions on the back.

I, the undersigned, hereby make application to Madison County for permission to apply **two applications** of **LIQUIDOW™ Calcium Chloride** for the purpose of dust suppression in the described location.

The Applicant agrees to the following:

1. **SIGN UP DEADLINE IS MAY 22<sup>ND</sup>.** Applications **MUST** be received by this date in order to be on the list for the first application. **Applications received after this date will be added to the list for second application only.**
2. To maintain flags identifying the outer limits of the area to be treated with dust suppression. **Flags must be in place by May 26<sup>th</sup> and remain visible until October 1<sup>st</sup>.** Flags not only identify for our drivers specifically where you would like the treatment, they also serve as a visual reminder for the blade operator of the treated area. If flags are not visible, our driver will center on the house, or use their best judgement.
3. Failure to keep flags visible may result in the treated area being bladed. Neither Jerico Services nor Madison County assumes any liability if your flags are not visible.
4. The county reserves the right to blade the treated area if it is deemed necessary for public safety. Your road will be thoroughly bladed after October 1<sup>st</sup> in preparation for winter.
5. Jerico Services does not guarantee the performance of the product due to factors such as weather, surface preparation or heavy traffic patterns.

Please also refer to Madison County Dust Control Policy printed on the reverse side of this application.

I have read and agree with the terms of this application.

**MADISON COUNTY**  
**DUST CONTROL POLICY**

**Adopted March 12, 2002**

**Revised October 2, 2018**

1. The resident is granted permission to place lignin, calcium chloride or magnesium chloride on the public roadway for the purposes of Dust Control, the cost of which is to be borne by the resident.
2. The resident's contractor shall give sufficient notice to the Office of the Madison County Engineer, prior to the intended application of the lignin, calcium chloride or magnesium chloride, in order that the road can be bladed and shaped.
3. The resident is responsible for maintaining a suitable driving surface on the treated section of the road. If the resident fails to fill any potholes or washouts that develop, Madison County will blade the affected area to restore a satisfactory and safe driving surface without notice to the resident. Madison County will not be responsible for reapplying treatment.
4. **The resident shall provide the necessary flags and signing during and after treating the surface.** The resident is responsible to maintain clearly visible flagging after treatment to aid the motor grader operator in identifying the treated area.
5. **This policy is valid for the time period starting the second week in June and ending the first week in October. Before or after this time period the County will routinely maintain the rock surface by blading.**
