☐ Check here if you have added special instructions on the back of this permit.

I, the undersigned, hereby make application to Tama County for permission to apply **two applications** of dust suppression in the described location.

The Applicant agrees to the following:

- 1. **DEADLINE FOR SIGN-UP IS APRIL 17**TH. Applications **MUST** be received by this date in order to be on the list for the first application.
- 2. To mark with four visible flags at all corners of the dust control area. Flags must be in place by **April 22nd** and kept visible until **October 15th**. Flags not only identify for our drivers specifically where the treatment should be applied, they also serve as a visual reminder for the blade operator of treated area. Failure to identify the treated area may result in your dust control being bladed through. Neither the county nor Jerico Services assumes any liability if your flags are not in place and visible.
- 3. Per Tama Dust Control Policy: "Tama County allows the placement of dust control on rock roads. The interest of the motorist to have a well-maintained road takes priority over the interest to suppress dust. Dust control sections may be bladed through starting October 15th and may be bladed through at any time if the condition of the road impedes traffic. Preserve your dust control by keeping it properly marked and by filling potholes with rock. Tama County's Dust Control Policy can be found at https://www.tamacounty.iowa.gov/engineer.html."
- 4. **LIQUIDOW**TM **Calcium Chloride** is a very effective dust suppression product however, Jerico Services does not guarantee the performance of the product due to factors such as weather, surface preparation or heavy traffic patterns.

I have read and agree with the terms of this permit.
