

2/15/24

Hello,

Please pass this information to your Highway/Traffic Safety Department as well as your local officials, police and residents.

Our traffic count contractor will be installing cameras to collect the volume and class data as per federal requirement starting Sunday, 2/18.

They will be picked up before Saturday, 2/24.

NYSDOT has authority to count on any public roadway and the traffic volume data collection information will be used to assist with the development of a reasonably accurate estimate of the traffic/Vehicle Miles of Travel that occurs on village roadways.

Thanks,

NYSDOT Region 10 Planning & Program Management
