

Event: Pico Balloon Launch

When: Pico-Balloon Launches Monday and Friday early mornings

Where: Lat/Long Coordinates: 33.58N 114.22W (.24 miles west of registration area then .10 miles NW along the established gravel roadways)

Weather permitting there will be two “pico balloon” launches with amateur radio payloads attached on Monday and Friday morning. Here is a map showing approximately where the balloon launches will take place. Please monitor the Morning and Noon Information Nets for changes and updates to the launch date/time and location. The event is weather dependent and the actual launches may have to be adjusted to accommodate weather.
