# Downtown QuartzFest

QuartzFest Central is the grouping of activities that has been around for the past several years.

This provides a more integrated environment for sessions, networking, and a focal point for the event.

The Special Event Station, K6Q will be the central focus of Quartzfest Central.

The Welcome Center is in a 10'x20' EZ-Up where everyone needs to register upon arriving after getting situated in their camp area.

There will be a third session area which will be two EZ-Ups creating a 20'x20' covered area for small sessions.
