EXCHANGE CLUB
CENTER *for*
FAMILY UNITY

Supervised Visitations take place in a family setting, including living room, dining room and kitchen with activities and plenty of room to play. We have a fenced play yard for safety and convenience.

We provide a refrigerator, stove and microwave so the family can prepare and enjoy a snack or meal together. Food can also be delivered to the Center.

The visit supervisor is present at all times and documents the interactions during the visit.

Supervised visitation involves engaging clients in a way that fosters healthy communication and supportive parent-child interaction.

The Supervised Visitation staff members are neutral parties and are there for the children's benefit and safety.
