

Our Philosophy

Here at Kids Club OOSH Care we are a fun, inclusive, play based centre guided by the 'My Time, Our Place' framework.

We believe play empowers each child to make their own choices, develop individual personalities & perspectives, strengthen their resilience & discover their own solutions.

We pride ourselves on offering a happy, safe & welcoming environment.

This environment offers both indoor & outdoor play with a range of diverse & stimulating activities for all to partake in.

Our staff take care in meeting each individual need of the children letting their passions guide our programming.

We believe fostering their emotional development offers children the foundation for lifelong growth.

As we reflect, collaborate, learn & explore together we empower the children to confidently develop their strengths in becoming capable individuals, creating the best versions of themselves.

We strive to offer a sustainable future by embedding this in our everyday routines & programming to create awareness within our centre.

At Kids Club we ensure we provide healthy & nutritious meals for before & after school care, catering to all dietary needs & requirements.

We offer a variety of choices with the input of our families & a rotating menu allowing children to try new things & make choices during their meal times.

Our staff at Kids Club are passionate about their roles & pride themselves on the relationships formed with each other & our families, allowing a sense of agency for all within the service. As staff we value the input & personalities of every child that comes through our service, with the goal to make all children & their families feel recognised, heard and supported, building a partnership between home, school & Kids Club.

All educators and families are invited to share their cultural beliefs, principles & traditions while also being open & accepting of those of others.

We enjoy learning about the indigenous land we work upon, Darkinjung land & establishing inclusive practises with one another.

Kids Club is here to nurture, believe in & care for the young people of our future.
