B&G heavy duty foggers have motors available in both 110V/60Hz or 220V/240V. Tank is rotationally molded and has seamless design for maximum strength. Made of corrosion resistant materials for use with many chemicals. Models 2600, 2400, and 2300 have 1.5 gallon capacity with 3-1/2” wide tank opening.

3-Gallon Ultra-Lite 2400 with Float
- Dispenses both oil and water-based products
- The float valve gives continuous flow capabilities without refilling the tank. For use in areas where large space spraying is required. Several units can be hooked together, using one main water and/or chemical supply source.

Flex-A-Lite 2600
- Adjustable flow rate up to 2.5 ounces/minute
- Extension hose is 18” long
- Variable delivery from ULV droplets to mist
- Ideal for fly control indoors
- ULV

Ultra-Lite 2400
- Adjustable flow rate up to 2.5 ounces/minute
- Variable delivery from ULV droplets to mist
- Economically priced yet very effective
- ULV

My-T-Lite 2300
- Ideal for general treatment with insecticides and sanitizers
- Flow rate approximately 9 ounces/minute
- Non-adjustable
- Non-ULV
