## **SECURITY OFFICER AWARDS & RECOGNITION NOMINATION FORM**

Thank you for electing to nominate a Security Officer for recognition by the ASIS International Greater Orlando Chapter! As you most likely already know, ASIS International is the preeminent organization for security professionals with more than 34,000 members world-wide. In keeping with our tradition to promote recognition of outstanding performance by Security Officers, the ASIS Greater Orlando Chapter allows for organizations with Security Officers to recognize outstanding performance by nominating them for recognition by ASIS Greater Orlando.

- Organizations will generally nominate based upon their own criteria for outstanding security service. At minimum, nominations will be made by a member of leadership within the nominee's organization. If others outside the organization wish to nominate a Security Officer within the organization, coordination with the nominee's organization must occur.
- Organizations should nominate based upon organizationally established criteria for outstanding service in the security profession.
- Organizations **MUST** be located in the Greater Orlando Area.
