

MAKINZIE FORD

GRAPHIC DESIGN, PHOTOGRAPHY, & ILLUSTRATION

I am a meticulous designer proficient in both traditional and digital mediums, with extensive experience across the Adobe suite. With a keen eye for the elements of design, detail, and typography, I excel in crafting visually compelling designs which are compositionally adept. My expertise extends to both digital and film photography, including film development. Additionally, I have expansive experience working with the community and demonstrate exceptional social skills. I draw inspiration from musical inspirations and vintage aesthetics, seamlessly blending them with contemporary design trends.
