About Astor Bannerman

Astor Bannerman are a high quality British manufacturer of washing, bathing, changing and manual handling equipment designed to support day to day care to enable people to live life beyond routine. We have been supporting families for over 30 years, and are proud of our continual innovation to the market.

All our equipment is manufactured to the highest quality level, endorsed by our ISO 13485 and ISO 9001 compliance. We understand how important it is to develop products that not only offer all the functionality required to support complex needs, but also products that are stylish and desirable, and where possible, allow an element of personalisation or choice.

Astor Bannerman has also been awarded with ISO 14001 for its strategic approach on environmental management.

Case Management Offer

Astor Bannerman understand that every case is different, and we are here to support Case Managers, Occupational Therapists and the wider MDT however we are needed in each case. We can support in the design of a whole house adaptation, work with you to specify the correct product mix to address needs, supply and install all required equipment, or offer a full turnkey solution. We will work with you in whatever way suits the needs of the case in question in order to gain the best possible outcome for your client.

Bathing

The Astor Bathing range includes a selection of baths to suit a varying level of complex needs, from baths that allow a self-side transfer to a range of height adjustable baths with integrated changing and showering stretchers and full hoist access.

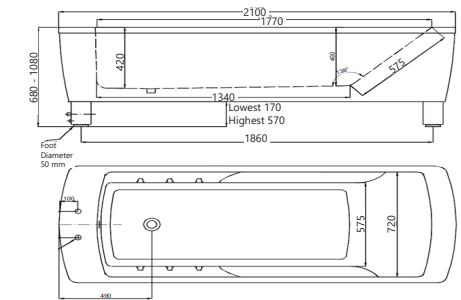

Astor Comfort

A capacious height adjustable assisted bath offering generous proportions in both length and width, giving plenty of room for additional supports or for plus-size needs.
