

Seating

Compass Chair

A supportive seat with sturdy armrests and stable frame offering mildly involved students the support they need to feel secure and comfortable. Suitable for children and adults up to 113kg in weight.

Bee

A fully adjustable, modular seating system specifically designed for young children from 4 months - 5 years.

Atom

Modern, child centred styling combined with a comprehensive range of support options make Atom the ideal seating system to develop correct seating posture and function. Suitable for children from approx. 6 months - 5 years.

Kid

A versatile seating system, specifically designed to provide young children from 8 months - 3 years with the required postural support, comfort and functionality during their physical development.

Junior+

Comfortable, contoured and stable modular seating system, designed to suit the needs of children from 18 months - 12 years.

Multiseat

A practical, comfortable, contoured and flexible modular seating system, designed for older children & adults up to 100kg in weight.

Activity Chair

The ultimate positioning chair for classroom and home. The Activity Chair provides versatile, adaptable and active seating for children and adults up to 113kg in weight.

Standing

Monkey

A simple, yet highly adjustable standing system, that provides prone to upright positioning for children from 9 months - 4 years.

Supine Stander

A robust, supported, supine standing suitable for users aged from 9 months - adult.

Multistander

A simple, yet comprehensive standing system in 2 sizes, providing supine, prone and upright positioning for children from 1 - 13 years. Multistander 1 also offers the option of abduction standing, allowing 0-30° of individual leg abduction.

Prone Stander

The Prone Stander is dedicated to assisted prone standing for children up to 70kg in weight; offering a continuous range of angles so the optimum position for each child can be achieved.

Standz

A versatile standing system offering prone or supine standing that accommodates abducted or neutral leg positioning for children between 1 - 9 years.

Sleeping

Dreama™

A simple, yet highly effective 24 hour positioning system - providing valuable rest for everyone! Suitable for children and adults.

Image shows Jenx Dreama™ system on a single size bed frame: Bed frame not included as part of the Dreama™ system.

Therapy

Side Lying Board

Side Lying Board offers supported comfort to children while resting or during play activities. Side lying is a great position in which to recharge and also for joining in with classroom activities.

Therapy Bench+

Available in multiple sizes. Offering an ideal platform for many activities including sitting to standing practice, static and dynamic sitting balance work or sitting posture improvement. Interchangeable tops offer further therapy options.

Ly-on

The ideal platform to build a structured yet safe and comfortable posture for children who have complex postural or medical needs.

Therapy

Rolls, Wedges & Mats

A colourful, simple and flexible range of products to help with support or specific therapy treatments.
