

Why is financial education crucial for youth?

Have you ever run out of money before the end of the month?

Did you have to borrow because you didn't have enough to cover household expenses or for an emergency?

Have you missed paying a bill at the store or at the community cash register on time?

 **If you answered “yes” to any of these questions, then you need to learn more about financial education.**

When young people know how to manage their earnings, spend carefully, and save even a little, they can be better prepared for emergencies, avoid unnecessary debt, and help their families.

Financial literacy doesn't depend on how much money you have, but on how you use it. Even with a small income, it's possible to plan better and ensure a more secure future.
